

We use online technology called “cookies” to collect user information and this is the policy for it. The cookies help us understand user behavior so we can provide better service to users based on the information collected via the technology. Any information we collect via cookies qualifies as personal data, our Privacy Policy applies to the collection and use of that data.

Cookies

Cookies are small data file that a website stores information on your computer. It collects information about every action you take while you stay in the site including which page you visit, how much time you spend on each page and etc.

We may use the information for the following purposes:

- To analyze recent market trend
- To understand customers' need
- To provide personalized service to customers
- To provide target marketing and advertising
- To protect customers from fraud

By accessing and using our services, you consent to the storage of cookies and use of the information collected by cookies.

Control Cookies

If you want to change your cookie settings, please follow the guideline provided by your website or mobile browser. If you disable cookies you may not able to certain parts of the service or not work properly.

Do Not Track

Some web browsers may transmit “Do-Not-Track” signals regardless of user intention. However, it is because uniform standards for “DO-Not-Track” signal have not been adopted yet, bHaptics Inc. does not take action in response to these signals. We will note how to respond to these signals when a standard is established and accepted. To learn more about “Do-Not-Track”, please visit <https://allaboutdnt.com/>
